Customer Satisfaction

At MOGAN the customer and customer satisfaction take center stage. This calls for an approach in which the quality of the finished products and services provided must meet the customer's highest demands. We therefore do not confine ourselves to just checking the end product, but implement an efficient quality policy to ensure appropriate monitoring throughout the entire production and sales process.

Quality Policy

Quality means satisfying the customer's expectations in terms of products and delivered services. Quality is not confined to those departments which come into direct contact with the customer. It is a key principle for all employees of MOGAN as they go about their work, whether in production, sales, accounting, customer service, R&D or purchasing. Every employee contributes to quality in their own field.

Pergolas

Bearing pergola entirely made of aluminum with a modern and functional design. Screws made of steel, complete with brackets for Wall/ceiling installation. MOGAN Pergolas provides 12,00 m projections without intermediate support.
